

# Create, Print & Progress

Can you create a stamp to sum up your values?

## Learning Outcomes

- Team Work
- Creative Thinking
- Skill Sharing
- Time Management
- Delegation
- Working towards a common goal

## Client Feedback

*"I really enjoyed the Workshop, it was a great way to bond with colleagues whilst doing something creative. I'd really recommend it to others!"*

*"A great hit and enjoyed by all the Commercial Team at the Fairtrade Foundation – who knew we had it in us to be so artistic!? The workshop was a great way for us to work together, outside of our normal working environment."*

## Challenge Overview

Working with Laura Felicity Design we have developed Create, Print & Progress. A fun and creative team build using Lino Printing to motivate your team as they work together towards a common goal - an overall piece of art created through collaboration and in turn a vision for the future.

The aim of this workshop is to develop teamwork, relationships and idea sharing; and to help form an enthusiastic and creative outlook.

The team build is split into 3 key sections:

### Values

Each small teams will design and create lino stamps that are themed around your company's ethics and values.

Teams then bring these together to create a masterpiece based on the company logo, encompassing the values printed in company colours.

### Future History

With creativity now following this is your chance to get your teams input into the future of the company.

Working as a larger team they are tasked with creating a printed timeline to show future milestones as they discuss how the company will evolve and grow.

### Just for fun

Working either in teams or solo, employees create individual stamps and print individual outcomes such as paper stationery, with an array of coloured inks and papers to choose from.

Create, Print & Progress has been developed in partnership with Laura Felicity Design who co-host every event with the Sunflower team.
